HP StorageWorks MSL6000 Ultrium 960 Drive

Tape backup is an important component in a complete data protection strategy. Tape offers long term reliability, the ability to remove media offsite and has a low cost per GB. The HP StorageWorks SDLT Tape Drives are high-capacity, high-performance streaming tape drives designed for use with HP ProLiant servers, HP AlphaServers, and Open SAN storage systems. These tape drives use Laser Guided Magnetic Recording (LGMR) technology to maximize the amount of data that can be stored on a tape. HP SDLT drives also use a clustered magnetic-resistive (MR) head technology to improve data density, use Partial Response Maximum Likelihood (PRML) technology to provide increased performance, and have a robust tape buckling system for reliability.

Features

∗ **SCSI Ultra 160 LVD Interface**

∗ **600 GB compressed capacity**

∗ **72 MB/s compressed performance**

∗ **Utilizes New Super DLTtape II 600GB Media with eMP60 Technology**

∗ **Backward-read compatibility with the SDLT 320 and the DLT VS160**

∗ **WORM Support (Write Once Read Many)**

∗ **One Button Disaster Recover (OBDR)**

∗ **High capacity in a single drive, reducing the number of cartridges needed to complete a back-up and lowering the total cost of ownership**

∗ **High performance reducing the amount of down time**

∗ **Higher capacity and improved reliability with advanced technology on the media**

∗ **Investment Protection with backward read capability**

∗ **Ability to set up compliant storage solutions using tape with support for write once, read many media (WORM)**

∗ **Improved Digital Data Rate Response Agent improving performance and reliability in non-streaming host environments**

∗ **New blue Super DLTtape II cartridge colour allows for easy media format recognition**

HP StorageWorks MSL6000 Ultrium 960 Drive

∗ **Improved optical servo system supports Super DLTtape II media data density and improves tracking margin**

∗ **Redesigned front panel provides more consistent airflow for internal drives**

∗ **Improved mounting system provides increased reliability and stability**

∗ **SDLT technology roadmap offers future capacities beyond 1 TB per cartridge**

∗ **Internal, External, Rack-mount options available**

∗ **Includes a single-server version of both HP OpenView Data Protector (license to download) and Yosemite TapeWare XE (CD) backup software with disaster recovery option**

∗ **HP One-Button Disaster Recovery (OBDR) restores your entire system at the touch of a button**

∗ **HP StorageWorks Library and Tape Tools (LTT) included to help with installation, management, performance optimization, and troubleshooting**

Specification

General

Tape backup is an important component in a complete data protection strategy. Tape offers long term reliability, the ability to remove media offsite and has a low cost per GB. The HP StorageWorks SDLT Tape Drives are high-capacity, high-performance streaming tape drives designed for use with HP ProLiant servers, HP AlphaServers, and Open SAN storage systems. These tape drives use Laser Guided Magnetic Recording (LGMR) technology to maximize the amount of data that can be stored on a tape. HP SDLT drives also use a clustered magnetic-resistive (MR) head technology to improve data density, use Partial Response Maximum Likelihood (PRML) technology to provide increased performance, and have a robust tape buckling system for reliability.

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
