

Brainboxes UC-101 Universal Low Profile PCI 1 1 Port RS232

This Universal PCI Low Profile card provides 1 industry standard 9 pin RS232 serial COM port in a single PCI slot, plus a second RS232 connection which is available on the flying lead header using the optional male 9 pin 'D' type serial cable. This product is designed to suit a variety of retail and financial applications. The UC-101 uses Brainboxes own BB16PCI958 industry leading UART giving 128 byte transmit and receive FIFO and more efficient data transfer due to greater control of FIFO trigger levels and readable FIFO levels. This product is the first of Brainboxes new range of Universal PCI cards to be launched and supports both 5V and 3.3V standards. The UC-101 has just been approved by Microsoft WHQL (Windows Hardware Quality Labs) which means it meets the designed for Windows XP standard and will help customers identify products that deliver a high quality computing experience. As PCI is fully Plug and Play compatible the operating system or BIOS automatically configures the card ensuring conflict free installation.

The UC-101 uses Brainboxes new industry leading UART BB16PCI958 and supports both 3.3V / 5V standards. Increasingly, modern PCs are coming with 3.3V PCI slots. The change from 5V to 3.3V signalling on the PCI bus is a result of the technical advances made by leading PC manufacturers such as Dell, HP and IBM to increase system speed while reducing onboard PC power consumption. What this means is that many new PC systems no longer use 5V signalling on the PCI bus, and 5V-only PCI cards cannot be used in these PCs. As part of our continued commitment to designing and manufacturing leading edge serial RS232 technology, we now offer the Universal PCI range that can work in both 5V and 3.3V signalling environments. This allows new and existing customers to have an easy migration path to this new technology.

Serial Ports	1 x RS232
Software Included	Serial Solutions Device Driver CD contains software for Windows Server 2003, Windows XP, Windows 2000, Windows Millennium, Windows 98, Windows 95, Windows NT4 and Linux support. Windows Server 2003, Windows XP and Windows 2000 signed drivers.
Operating Systems Supported	Windows Server 2003, Windows XP, Windows 2000, Windows Millennium, Windows 98, Windows 95, Windows NT4 and Linux support
Dimensions	6.4cm (W) x 12.2cm (D) - Weight 0.097kg

Features

- * 1 RS232 Serial Port
- * Additional 9 pin RS232 port available via serial cable
- * PCI Bus - Fully Plug & Play
- * Sample Programs, Test & Terminal software - all with source code
- * Drivers for all popular operating systems

Brainboxes UC-101 Universal Low Profile PCI 1 1 Port RS232

- * Supports both 3.3V / 5V standard
- * Microsoft logo approved (WHQL)
- * Upto 128byte transmit and receive FIFO
- * Greater control of FIFO trigger levels, and readable FIFO levels for improved transfer efficiency
- * PCI 2.3 Compliant

Specification

General

This Universal PCI Low Profile card provides 1 industry standard 9 pin RS232 serial COM port in a single PCI slot, plus a second RS232 connection which is available on the flying lead header using the optional male 9 pin 'D' type serial cable. This product is designed to suit a variety of retail and financial applications. The UC-101 uses Brainboxes own BB16PCI958 industry leading UART giving 128 byte transmit and receive FIFO and more efficient data transfer due to greater control of FIFO trigger levels and readable FIFO levels. This product is the first of Brainboxes new range of Universal PCI cards to be launched and supports both 5V and 3.3V standards. The UC-101 has just been approved by Microsoft WHQL (Windows Hardware Quality Labs) which means it meets the designed for Windows XP standard and will help customers identify products that deliver a high quality computing experience. As PCI is fully Plug and Play compatible the operating system or BIOS automatically configures the card ensuring conflict free installation.

The UC-101 uses Brainboxes new industry leading UART BB16PCI958 and supports both 3.3V / 5V standards. Increasingly, modern PCs are coming with 3.3V PCI slots. The change from 5V to 3.3V signalling on the PCI bus is a result of the technical advances made by leading PC manufacturers such as Dell, HP and IBM to increase system speed while reducing onboard PC power consumption. About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
