Zebra Poly Trans 2000 102 x 152 mm Gloss polyethylene label with all purpose permanent acrylic adhesive

A white gloss polyethylene label stock for use with Zebra Resin Ribbons. Features an all-purpose permanent acrylic adhesive. A low-cost synthetic solution for applications that require more tear resistance than paper labels. Recommended for outdoor use for up to nine months. Applications include environmentally friendly labeling of shrink-wrap, as well as durable shelf-edge and garden center labeling. Available in a range of off-the-shelf sizes. Zebra's thermal transfer labels are available in paper or synthetic formats. Paper labels are inexpensive, yet offer excellent print quality and can be used in a multitude of general-purpose applications. Synthetic thermal transfer labels are durable, long lasting, and resistant to abrasion, moisture, heat, tearing, and chemicals. Thermal transfer technology utilizes a ribbon and matching tag stock material to transfer an image onto the label material. For the best solution with long life requirements or harsh environments, use with a Zebra ribbon.
