Features

∗ **HP is the market share leader in Ultrium drives and media and co-developer of Linear Tape Open (LTO) format**

∗ **Designed in conjunction with HP Ultrium drives to ensure tool compatibility and reliability**

∗ **UP to 800 GB compressed capacity**

∗ **Supports transfer speeds of 80 MB/s (native), 160 MB/s (2:1) with Generation 3**

∗ **For use in all HP and non-HP LTO Ultrium products**

∗ **Unique coloured cartridge to assist with identification in mixed media environments**

∗ **Superior \'smart grabber\' mechanism and mechanical interlock to prevent the leader pin from being pulled inside the tape housing (a key weakness of DLT media). Sensors detect proper connection and prevent leader loss that would ruin the tape**

∗ **Simplified tape path to reduce wear and tear**

∗ **Lowest media cost per GB at launch of any tape technology**

∗ **LTO cartridge memory in media to improve access time and provide enhanced media monitoring**

∗ **Durable cartridge designed to minimize wear and debris (important in automation)**

∗ **Tested to extremes in HP\'s media laboratory, to a level of specification unique to Hewlett-Packard. Many of the test procedures required for HP Brand qualification (e.g. load/unload, shoeshine, drop testing and thermal aging) are not required for the Ult**
