## **ATI FireMV 2260 Multi-View 2D Workstation Graphics Card 256MB PCI Express 2.0x16 (Retail)**

The FireMV series of professional 2D graphics cards boasts innovative low profile dual monitor design which means that all FireMV cards will fit into both Low Profile and Full Height systems. This enables integration into a wide range of machines with a smaller number of cards to qualify. The same applies for the new low profile FireMV quad monitor cards - their super space efficient architecture lets you choose even the smallest systems including docking stations and still be able to achieve simultaneous output to four displays. The FireMV design utilizes passive cooling for a higher mean time between failures (MTBF) providing greater reliability. Its inherently lower power consumption helps reduce the overall power load without sacrificing performance an increasingly important benefit to sites with a large installed user base.

FireMV cards feature either 32 MB, 64MB, or 128MB of dedicated on-board memory for each display to enable maximum stability and unparalleled performance (total on-board memory ranges from 64MB to 256MB depending on product configuration). To provide added flexibility, dual and quad FireMV cards can be combined to drive even more displays. Every FireMV card, including the quad versions, also meet the industrys highest standards for resolution. ATI offers industry leading support for your FireMV products. A dedicated team of front-line technical support professionals is available to serve you. Our support program features toll-free telephone support, a dedicated question and answer group for validation and reproduction of all reported issues, and the help and guidance of a dedicated and experienced IT team.

<b>Warranty</b>	Three Year Limited.
<b>Barcode</b>	0727419414708
<b>Chipset</b>	ATI FireMV 2260
<b>Cooling System</b>	Passive
<b>Memory (Maximum)</b>	256MB DDR2
<b>Maximum Resolution</b>	2560 x 1600 Pixels
<b>Dimensions</b>	5.84cm (W) x 16.76cm (H)

### **Features**

- \* **ATI FireMV 2260 Multi-view 2D Workstation Graphics Card (Retail)**
- \* **Bus interface: PCI Express 2.0 x16**
- \* **256 MB DDR2 graphics memory**
- \* **Powered by next generation ATI FireMV graphics processor unit (GPU) from AMD**
- \* **Two Display Port outputs for driving multiple ultra high resolution widescreen monitors**
- \* **Passive cooling package for silent operation**

### **About Memory Express**

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
