Moreover, removing the G-1 is extremely easy without leaving any residues. Thanks to the low noise impeller and patented fan holder, the Accelero TWIN TURBO II runs at the minimum noise level of 0.3 sone, even at full load. Equipped with a PWM controller, the fan always runs at the optimal speed according to the load generated by the GPU. The Accelero TWIN TURBO II comes with a versatile mounting mechanism and an extensive RAM and VR cooling set to accommodate a broad range of models. Featuring the CrossFire and SLI compatibility the users benefit from the optimized performance of a multi-VGA setup.

The Accelero TWIN TURBO II is a dual-fan VGA cooler with enhanced multi-compatibility for present and future models. Designed to optimize performance and the overclocking capability of your system, the Accelero TWIN TURBO II is your ultimate cooler for mid-range to high-end graphic cards. The Accelero TWIN TURBO II is a dual-fan VGA cooler with enhanced multi-compatibility for present and future models. Designed to optimize performance and the overclocking capability of your system, the Accelero TWIN TURBO II is your ultimate cooler for mid-range to high-end graphic cards. Featuring two 92mm PWM fans with a maximum cooling capacity up to 160 Watts, the Accelero TWIN TURBO II manages to transfer heat efficiently away from the GPU. Besides the 35-fin heatsink with 5 copper heatpipes, the pre-applied MX-4 thermal compound accelerates the heat dissipation process to ensure the VGA board is running under optimal temperature. In order to boost the cooling efficiency of RAM and VR, the Accelero TWIN TURBO II comes with the G-1, an electrically non-conductive thermal glue used to affix RAM and VR heatsinks on the VGA board. Unlike generic thermal tapes, the G-1 offers high thermal conductivity with excellent adhesiveness.

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
