Axis T92E05 Protective Housing (White) for Axis Network Camera Series

No Image
Available

AXIS T92E Housing Series has IP66 and NEMA 4X protection rating against the ingress of dust, windblown dust, rain, high pressure water jets from any direction, hose-directed water, and damage from external ice formation. IK10-rated for protection against impact and vandal acts. In addition, the cables are vandal protected and the front window is replaceable. AXIS T92E20 Outdoor Housing features a dual shell technology, where an internal shell stores heat in cold environments. Fan ventilation for hot environments, where the heat is transferred to the outer chassis for efficient cooling. Operating conditions ranges between -30 C to 50 C (-22 F to 122 F) with PoE (IEEE802.3af) and down to -40 C (-40 F) with High PoE (IEEE802.3at). The Arctic Temperature Control allows the camera not only to function at -40 C (-40 F), but can also power up at that temperature following a power failure.

A broad list of included accessories make AXIS T92E Series easy to mount in all situations, thanks to one cable installation, wall bracket, 5 m Ethernet cable with pre-mounted gaskets, captive screws and it is prepared for mounting of IR or White LED illuminators. AXIS T92E05 Protective Housing is stripped down from the electronics components, maintaining the protection rating to defend the network camera in those environments where temperature management is not a demand, e.g. in subways or shopping malls. The AXIS T92E23/T92E24 Thermal Camera Housings have germanium front windows and are intended for outdoor use of the Axis thermal network cameras.

Barcode	733102103187
Case Colour	White
In The Box	Axis T92E05 Protective Housing VT wall bracket Sunshield, 5 m (16 ft.) Ethernet cable with premounted gasket 2 x short Ethernet cables User's Guide
Dimensions	Weight 2.4kg

Features

- * Dual shell
- * IP66- and NEMA 4X-rated
- * IK10-rated
- * Arctic Temperature Control
- * One cable installation

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
