## **Freecom Mobile Drive XXS 3.0 (1TB) Portable Hard Drive**

No Image  
Available

Looking for the highest possible capacity in the smallest possible size? Meet the smallest mobile drive in the world! The Mobile Drive XXS 3.0 is the perfect solution for you. Freecom's Mobile Drive XXS 3.0 is the ideal mobile hard drive if you travel frequently. Or when you just need to have your files nearby at all times. Store them on your XXS and always have your business and personal files with you. The Mobile Drive XXS 3.0 - designed by the young and talented, multiple award -winning Belgian designer Sylvain Willenz - is made out of rubber which not only provides a stylish look, but also gives the necessary grip to avoid dropping your hard drive.

Whether you are a professional or a home user, these days being able to carry your valuable data with you is essential. The Mobile Drive XXS 3.0 is your perfect companion: ultra compact and extremely easy to use - this USB powered portable hard drive makes transporting and sharing data easier than ever. Simply plug the Mobile Drive XXS 3.0, with its conveniently small USB cable, into any computer's USB port and take your spreadsheets, documents, movies, photos or music anywhere you go. The Freecom Mobile Drive XXS 3.0 is the latest development in Freecom's ongoing pursuit of making storage more accessible, useable and convenient. The 'enclosure' is made out of rubber which will give you grip when holding the drive in your hand. The new USB 3.0 interface ensures ultra fast data transfer speeds, whilst still being 100% compatible with USB 2.0 ports. It also comes with a compact sized USB cable - all you need to connect and use the Mobile Drive XXS 3.0 on your notebook or PC. Gone are the days where multiple connection cables create a mess when stuffed inside your notebook bag. The Mobile Drive XXS 3.0 is USB bus powered, no additional, long cables or power adapters are needed to use the drive. The Mobile Drive XXS 3.0, the world's smallest 2.5' hard drive, is a no-nonsense mobile hard drive, which has all you need for easy and reliable expansion of your storage needs.

### **About Memory Express**

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
