HP P6300 EVA Field Installed Starter Kit with 8 x 600GB (10,000rpm) SAS SFF Hard Drives

Do you need an affordable and efficient array system with high availability and performance?; The HP P6000 Enterprise Virtual Array is an easy to use, capacity enhanced storage system with built-in virtualization letting you to consolidate storage and simplify your IT. The P6000 EVA also offers high performance, high availability, and robust data protection. Combined with your favorite database, email, ERP or other applications, the P6000 EVA provides an integrated end-to-end solution that helps drive your business.; See improved storage density with built-in Thin Provisioning and a smaller footprint in your data centre with 2.5-inch SAS disk drives. The P6000 EVA offers multi-protocol support to your SAN with 8 Gb/s Fibre Channel, 1 Gb/s iSCSI, and 10 Gb/s iSCSI/FCoE options.; It provides a better business value by eliminating stranded capacity and maximizing performance. P6000 EVA uses all the disks to send and retrieve data and can dynamically expand virtual disks as data grows.

Warranty	3 Year Parts, 3 Year Labour, 3 Year On-Site Support
Included Drive(s)	4,800GB (8 x 600GB) 10,000RPM SAS
Dimensions	121.92cm (W) x 101.60cm (D) x 102.87cm (H) - Weight 66.22kg

Features

- * The HP P6000 Enterprise Virtual Array Systems family is the recognized leader when it comes to array management Because the P6000 EVA has built-in virtualization, it is easy to provision storage, add storage, and protect data This ease of use translates i
- * The P6000 EVA improves utilization and reduces the expense of explosive data growth with a virtualized design that is a perfect complement for the converged infrastructure
- * The P6000 EVA has a modular design making it easy to select an affordable entry configuration while easily expanding later and scaling it up to 480 TB
- * With a new small form factor (SFF) disk drives, the P6000 EVA requires less energy to store the same amount of data compared to the previous generation array
- * In a virtual server environment where speedy deployment of new servers is critical, the HP P6000 Enterprise Virtual Array Systems family offers a complementary adaptable storage solution Configuring the P6000 EVA from VMware Vcentre makes for easy provisi
- * The P6000 EVA offers flexible SAN connectivity options with built-in 8 Gb/s Fibre Channel ports, 1 Gb/s iSCSI ports, or 10 Gb/s iSCSI/FCoE ports Your investment in the P6000 EVA is protected as your needs for SAN connectivity change over time
- * The P6000 EVA is broadly used across many industries with a variety of applications and with robust OS compatibility

HP P6300 EVA Field Installed Starter Kit with 8 x 600GB (10,000rpm) SAS SFF Hard Drives

- * With new Thin Provisioning software, gain efficiencies in capacity utilization, saving disk space compared to traditional provisioning
- * As the lifecycle for data changes, use the P6000 EVA dynamic LUN migration feature to easily move data to less expensive storage, all with no interruption to the application
- * Strategic options for the P6300/P6500 EVA Systems are P6000 Business Copy Software and P6000 Continuous Access Software for replication needs These improve data availability and business agility supporting business continuance and disaster tolerant enviro
- * Fifth generation of the HP virtual array system means built in quality
- * HP Cluster Extension software helps customers meet their Recovery Point and Recovery Time Objectives through seamless integration of the P6000 Continuous Access Software remote replication capabilities with Window and Linux high-availability server cluste

Specification

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.
