Epson LabelWorks LW-900P Thermal Transfer Label Maker

No Image Available

Connect this versatile label printer to your PC or Mac to create a wide variety of professional labels up to 36mm. Fitting neatly onto your desktop, the LW-900P takes care of all your labelling requirements, from filing to asset tagging, making it ideal for signage, facilities and goods-in departments. With a resolution of 360dpi and a print speed of up to 25mm/s, you'll get high-quality labels at high speed. Creating labels is easy using the included software with intuitive menus. Choose from pre-loaded label templates, or design your own and store them on your computer. A special toolbar enables you to add pre-defined frames, symbols, barcodes and text enhancements, or import images. In just a few steps, your label is ready to print. Using the software, you can import data in csv, txt and xls(x) formats, create a layout corresponding to the column headings, and then print labels for each line of data. You can also print a series of labels with incremental dates or figures. Producing labels is a hassle-free process from start to finish, as the LW-900P automatically detects the tape width, and automatically cuts or half-cuts the labels once printed. Its convenient integrated trimmer can round label edges, and a dedicated window displays how much tape remains.

Epson's wide selection of labels in 4, 6, 9, 12, 18, 24 and 36mm sizes cover virtually every labelling need, with transparent labels, cable wraps, writable matte paper labels and more, plus a choice of adhesive strengths and colour combinations. All Epson labels are very durable, resisting water and withstanding hot and cold conditions. The LW-900P minimises label margins, meaning you get more labels per tape, and Epson's 9-metre label tape offers economical refills. Two four-metre label tapes are included to get you started.

Warranty	2 Years
Barcode	8715946492735
Tape Widths	6, 9, 12, 18, 24, 36mm

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
