## Epson LabelWorks LW-300 Thermal Transfer Label Maker

No Image  
Available

Versatile, easy-to-use electronic labelling system with built-in keyboard and a range of labels to suit most office labelling requirements. Organise your office space with professional labels. The Epson LabelWorks LW-300 is a compact electronic label printing system that takes care of all your office labelling requirements, including filing and storage. With its ergonomic buttons, integrated keyboard and high-quality LCD screen, the LW-300 is simple to use. Dedicated buttons give quick access to cutting and printing functions, while an internal memory allows you to save and recall your favourite 30 label designs at any time. The amount of tape remaining can be checked at any time using the dedicated window. Fitting easily onto your desktop, the LW-300 can be used with the included AC adaptor, or loaded with batteries for label printing on the go. It prints up to two lines and offers excellent versatility with 14 font types, 5 character sizes, 457 symbols, 87 borders and 10 styles, including bold, italic, outline and shadow. Epson's wide selection of tapes in 6, 9 and 12mm sizes cover virtually every office labelling need. The range includes standard, black, transparent and writable matte paper labels, a variety of colours including fluorescent and pastel, and two adhesive strengths. All Epson labels are durable, resisting water and withstanding hot and cold conditions.

The LW-300 minimises label margins, meaning you get more labels per tape, and Epson's 9-metre label tape offers economical refills. Two four-metre label tapes are included to get you started.

### About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
