Epson LabelWorks LW-400 Thermal Transfer Label Maker

No Image
Available

Create professional labels in the office or on the go using this portable handheld electronic labelling system with backlit screen. A lightweight, portable electronic label printing system that fits easily into your hand and takes care of all desktop and mobile labelling requirements, such as filing, storage, asset tagging and equipment identification. With its ergonomic buttons and integrated keyboard, the LW-400 is straightforward to use. Dedicated buttons give quick access to cutting and printing functions, while an internal memory allows you to save and recall your favourite 50 label designs at any time. Remaining tape can be checked via a window. The LW-400 prints up to four lines and offers excellent versatility with eight barcode standards, 14 fonts, five character sizes, 487 symbols, 87 borders and 10 styles, including bold, italic, outline and shadow. See how your labels will look - even in darkness or sunlight - thanks to the LW-400's backlit LCD screen. Epson's wide selection of labels in 6, 9, 12 and 18mm sizes cover virtually every labelling need. The range includes standard, black, transparent and writable matte paper labels, a variety of colours such as fluorescent and pastel, and two adhesive strengths.

All Epson labels are durable, resisting water and withstanding hot and cold conditions. The LW-400 minimises label margins, meaning you get more labels per tape, and Epson's 9-metre label tape offers economical refills. Two four-metre label tapes are included to get you started.

Warranty	2 Years
Barcode	8715946492698

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
