The MANHATTAN LCD Cleaning Kit gently cleans and removes dirt, fingerprints and smudges from most LCD surfaces, making it ideal for use with flat panel displays, TVs, notebook computers, tablets and other electronics and computer peripherals. The non-aerosol, unscented gel solution safely cleans without harsh solvents or abrasives. A soft, lint-free anti-microbial microfiber cloth gently eliminates fingerprints and smudges from delicate surfaces and destroys microbes on contact to protect against bacteria, fungi and other microorganisms. For best results, spray cleaner onto microfiber cloth, gently wipe then quickly dry any excess liquid from LCD surface. Safe for frequent use on LCD surfaces to help restore and maintain brightness and clarity. MANHATTAN does not recommend that cleaning solution be directly applied to any LCD surface. Not recommended for use on anti-glare, privacy or polarized materials.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects.
