Manhattan LCD Mini Cleaning Kit Alcohol Free

No Image
Available

The MANHATTAN LCD Mini Cleaning Kit gently cleans and removes dirt, fingerprints and smudges from most LCD surfaces, making it ideal for use with flat panel displays, televisions, notebook computers and other electronics. A soft, synthetic brush gently eliminates excess dust and debris without scratching. The bristles retract into the handle to keep them clean and protected. The non-aerosol solution safely and thoroughly removes fingerprints and smudges without harsh solvents or abrasives. A soft, lint-free microfiber cloth gently cleans, dries and polishes for a clear, non-streak finish. The small bottle and carrying bag are ideal for travel. For best results, spray cleaner onto microfiber cloth, gently wipe then quickly dry any excess liquid from LCD surface. Safe for frequent use on LCD surfaces to help restore and maintain brightness and clarity. MANHATTAN does not recommend that cleaning solution be directly applied to any LCD surface. Not recommended for use on anti-glare, privacy or polarized materials.

Barcode 766623421010

Features

- * Isopropyl alcohol-free
- * Safe for use on LCD surfaces - helps restore and maintain brightness and clarity
- * Ideal for use with flat panel displays, notebook computers, televisions and more
- * Soft brush gently eliminates excess dust and debris without scratching
- * Non-aerosol cleaner removes fingerprints and smudges without harsh solvents
- * Soft, lint-free microfiber cloth cleans, dries and polishes for a clear, non-streak finish

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
