## **Corsair Vengeance 8GB (2 x 4GB) Memory Module PC3-12800 1600MHz DDR3 (SODIMM)**

No Image  
Available

If you're a serious road warrior or you use your notebook for heavy-duty applications like photo and video editing, your notebook should have as much memory as possible. Adding a 4GB or 8GB laptop memory upgrade kit will allow you to multitask between more programs at once and load and edit larger files without having to wait for data to buffer to the drive. Vengeance laptop memory upgrade kits are designed to work with any PC or notebook which accepts standard DDR3 SODIMMs. Many laptops - even those sold as performance systems - come equipped with memory that's not capable of running at the maximum speed supported by the processor. If your notebook is equipped with a 2nd Generation Intel Core i5 or Core i7 processor, it will automatically detect the faster speed supported by the Vengeance laptop memory upgrade kit. No BIOS adjustments are necessary to take advantage of the faster memory speed. Vengeance memory is backward compatible with notebooks which use first-generation Intel Core i5 and Core i7 processors. Even if your notebook doesn't use the latest-generation processor, you can still upgrade to 8GB using only two memory slots, and enjoy the confidence of Corsair's renowned service and support. Like the legendary Dominator, enthusiast-grade Vengeance DRAM is designed for stability, stringently factory-tested, and backed by our limited lifetime warranty. There's a reason why world-champion overclockers, extreme gaming enthusiasts and high-end system builders all trust Corsair for high-performance memory that they can install with confidence and pride. Whether you're breaking your own records or you're simply building a dream gaming rig, you can count on Corsair memory. Your performance investment is protected. All of our memory products are backed by a limited lifetime warranty. With a long history of building enthusiast-grade memory and components, we've earned a reputation for quality, compatibility, and performance. Need help? We're available by phone call, email or web forum.

<b>Memory Size (Total)</b>	8192MB (1 module(s) x 8192MB)
<b>Memory Type</b>	DDR3
<b>Memory Package</b>	SO-DIMM
<b>Designation</b>	PC3-12800

### **About Memory Express**

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
