StarTech.com 16 Port Rackmount ftDI USB to Serial COM Adaptor Hub - RS232 Multiplexer

No Image
Available

The ICUSB23216F 16-Port Rack Mountable FTDI USB Serial Hub (FTDI) adds 16 RS232 Serial ports with data transfer rates up to 921.6 Kbps, for control by a desktop or laptop computer system using a single USB port. This durable, hardened USB to RS232 hub offers an all metal chassis, which fits into standard 19-inch server storage racks for an organized industrial USB to COM port solution, and supports an extended -40C to 85C (-40F to 185F) operating temperature range that allows for reliable use in even the harshest environments. The hub features COM port retention, retaining assigned serial COM port values, allowing the same values to automatically be re-assigned to the port provided by the adapter in the event it is disconnected, then re-connected to the host computer. The USB-serial hub includes both an AC adapter and Terminal Block power options and features a reliable FTDI USB to serial chipset that offers simple installation into a broad range of operating systems including Windows, Linux and Mac OS. Backed by a StarTech.com 2-year warranty and free lifetime technical support. Extended, hardened operating temperature range allows the device to remain operational in harsh conditions. Adding 16 ports using a single USB port delivers maximum control of several RS232 serial devices, without having to purchase multiple I/O cards. Rack-mountable, all-metal chassis for durability in industrial environments.

Ideal for industrial automation on factory/manufacturing floors. Full control of your server room serial components from a single device. Control/monitoring of surveillance/security cameras and systems. Self-service automated machines and kiosks (grocery, airport) to control serial devices such as scales, touchscreens, magnetic card readers, bar code scanners, receipt printers, label printers. POS control of keyboards, cash drawers, receipt printers, card readers/card swipes, scales, and elevated displays on poles. Bank teller workstations in either full profile or low profile versions, to control their serial devices such as cash drawers, card readers / card swipes, printers, keypads / pinpads, pen pads.

| Warranty | 2 Years |
| Barcode | 065030844789 |
| Dimensions | 12.0cm (W) x 43.0cm (D) x 4.5cm (H) - Weight 1.520kg |

Features

- * 16 RS232 interfaces through a single USB port
- * 921.6 Kbps baud per port
- * 256-byte transmit, 128-byte receive FIFO
- * Rack-mountable design
- * COM port retention -40 C to 85 C (-40 F to 185 F) extended operating temperature range
- * All metal chassis
- * Includes AC Adapter, and Terminal Block power options

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
