Drobo 4-Bay Direct Attached Storage (DAS) Array for Professionals

No Image Available

Inside every Drobo is the revolutionary BeyondRAID storage technology that protects data against a hard disk crash, yet is simple enough for anyone to use. As long as you have more than a single disk in Drobo, all data on Drobo is safe no matter which hard disk fails. There's no need to worry about anything else. Your library of data grows every moment and now your storage solution expands in seconds too. Drobo holds up to four hard drives, can expand at any time, and supports up to 16TB on a single volume as disk sizes increase. Choose how big you want your Drobo today with any combination of drives capacities. Yes, you can mix and match drive sizes. Check out the Drobo Capacity Calculator to try it out for yourself. With FireWire 800 alongside USB 2.0, Drobo has the right connectivity options to connect to your Mac or PC. It's the perfect solution for both primary and backup storage of large media and productivity files such as video, photos, music, audio, and troves of documents and spreadsheets. FireWire and USB cables are even included. Protecting your data from a hard drive failure can be a challenging task. Not with Drobo. As long as Drobo has two hard drives, it protects you from a drive failure.

If a drive happens to fail, you do not lose access to data, which means that you can keep on working. Just swap out the failed hard drive and replace it with a new SATA drive of any size. All Macs have Time Machine, but how do you back up your Windows PC? Backing up your PC to a Drobo is as easy as using Drobo with Drobo PC Backup, now bundled with Drobo, Drobo S, Drobo FS, and Drobo B800fs.

Maximum Enclosure Capacity	Total Bay Capacity 4TB / Total Bay Capacity (SATA) 16TB
Included Drive(s)	0GB (0 x 0GB)
Dimensions	15.24cm (W) x 27.18cm (D) x 16.0cm (H) - Weight 3.04kg

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
