This Bolt-down Kit is for the 18, 24 and 38U Netshelter CX product set. Of the 2 brackets in this set, one L-bracket affixes to the underside of the CX to pre-existing bolts. The other L-bracket affixes to the floor. Design is such that the 2 brackets can be fixed to the CX and floor first, and then the CX can be wheeled into place to secure the enclosure to the floor. Connection between the 2 brackets can be made using the nut & bolt hardware included, or by using a locking mechanism (not provided).

We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit.
