## **IBM Tivoli Storage Manager 10 Processor Value Units Tradeup Express Licence and 12 Months Software Subscription and Support**

IBM **Tivoli** software

The 24x7 availability of mission-critical data and applications is no longer a goal for today's businesses - it's a necessity. The IBM Tivoli Storage Manager family of offerings is designed to provide centralized, automated data protection that can help reduce the risks associated with data loss while helping to manage costs, reduce complexity, and address compliance with regulatory data retention requirements. IBM Tivoli Storage Manager enables you to protect your organization's data from failures and other errors by storing backup, archive, space management and bare-metal restore data, as well as compliance and disaster-recovery data in a hierarchy of offline storage. Because it is highly scalable, Tivoli Storage Manager can help protect computers running a variety of different operating systems, on hardware ranging from notebooks to mainframe computers and connected together through the Internet, wide area networks (WANs), local area networks (LANs) or storage area networks (SANs). It uses Web-based management, intelligent data move-and-store techniques and comprehensive policy-based automation that are working together to help increase data protection and potentially decrease time and administration costs.

The progressive incremental methodology used by Tivoli Storage Manager only backs up new or changed versions of files, thereby greatly reducing data redundancy, network bandwidth and storage pool consumption as compared to traditional methodologies based on periodic full backups. Tivoli Storage Manager 6 also includes built-in target-side data deduplication for disk storage pools to further reduce capacity requirements, as well as source-side deduplication to reduce network bandwidth impact. Tivoli Storage Manager also works in concert with storage hardware to exploit other data reduction techniques such as subfile backup, client compression and device compression. The result is that companies are able to manage more data with less infrastructure and simplified administration, saving money, improving service levels and minimizing risks.

### **Features**

- \* **12 Months Software Subscription and Support**
- \* **Backup and Recovery Management**
- \* **Policy-based management of file backup and archiving**
- \* **Ability to easily protect and manage documents that need to be kept for a certain period of time**
- \* **Reduces the costs of data storage, environmental requirements, and administration**

### **About Memory Express**

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
