IBM Tivoli Storage Manager FastBack Per 10 Processor Value Units Annual Software Subscription and Support Renewal

IBM **Tivoli** software

IBM Tivoli Storage Manager FastBack Center is a convenient bundle of Tivoli Storage Manager FastBack, Tivoli Storage Manager FastBack for Bare Machine Recovery and Tivoli Storage Manager FastBack for Microsoft Exchange. Provides the power to quickly recover any Microsoft Windows or Linux server data, anywhere in the organization, from any point in time. Augment Tivoli Storage Manager as part of a Unified Recovery Management platform to provide enhanced protection and recovery of business critical application servers in the data centre. Meet data protection and retention requirements on a per-application basis by scheduling automated backup operations as often as needed, up to true Continuous Data Protection (CDP). Reduce the amount of data at risk between backups to as little as the last transaction and reduce the time it takes to recover any amount of data to just a couple of minutes, following almost any type of data loss. Reduce storage capacity requirements with block-level incremental-only backup and built-in data deduplication at the FastBack Server and across the WAN. Protect and recover data for critical applications, including Microsoft Exchange, SQL, SAP, DB2 and Oracle, seamlessly at the block level while eliminating the need for traditional backup windows.

Features

- * **Annual Software Subscription and Support Renewal**
- * **Automate and consolidate the protection of data in remote and branch offices**
- * **Provide a cost-effective, comprehensive data protection and disaster recovery solution for small and mid-sized organizations**
- * **Recover the data you need - a single file or an entire volume - within a couple of minutes; restoration of the data occurs in the background**
- * **Perform non-disruptive snapshots in the background; the lightweight agent is an excellent backup solution for Virtual Machines (VM)**
- * **Restore an entire system within an hour using the Bare Machine Recovery function**
- * **Restore individual e-mail items from a protected Microsoft Exchange database**
- * **Improve visibility into your data management environment with integrated Tivoli Common Reporting**
- * **Operating systems supported: Windows and Linux**

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
