# IBM Tivoli Storage Manager for Advanced Copy Services 10 Processor Value Units Licence and 12 Months Software Subscription and Support

Tivoli Storage Manager for Copy Services and Tivoli Storage Manager for Advanced Copy Services can help protect your mission-critical data that requires 24 x 7 availability. They offer ready-to-use, application consistent, product-based solutions designed to implement high-efficiency backup and restore processes for business-critical applications, and help to eliminate backup-related performance impact on the production host. By integrating hardware and software-based snapshot capabilities with IBM Tivoli Storage Manager and its data protection components for Microsoft Exchange, Microsoft SQL, IBM DB2 UDB, Oracle, and SAP, you can help manage your snapshot backup operations and leverage the performance, scheduling, and media management functions of Tivoli Storage Manager to help ensure that your application servers are operational 24 hours a day. Tivoli Storage Manager for Copy Services provides the integration with Microsoft Volume Shadow Copy Service (VSS) and VSS providers for snapshots. Tivoli Storage Manager for Advanced Copy Services provides the integration with IBM FlashCopy as supported by IBM System Storage SAN Volume Controller (SVC), IBM System Storage DS6000, IBM System Storage DS8000, and other snapshot mechanisms.

In today's business world, application servers often are operational 24 hours a day. The data on the application servers should be well protected. With the rapid increase in the amount of data on these servers, their critical business needs, and the shrinking backup windows, traditional backup and restore methods may be reaching their limits in meeting your challenging requirements. Snapshot operations can help minimize the impact caused by backups. Since a snapshot operation typically takes much less time than the time for a tape backup, the window during which the application must be aware of a backup can be reduced. The snapshots can be retained as backups on local disk, sent to Tivoli Storage Manager server storage pools, or both.

## Features

∗ **12 Months Software Subscription and Support**

∗ **Enhanced snapshot support for SAP environments**

∗ **Support for FlashCopy restore onto a Peer-to-Peer Remote Copy (PPRC) source volume**

∗ **Support for multiple snapshot versions**

∗ **Support for FlashCopy of a single mirror set in LVM mirrored environments**

∗ **Support for IBM XIV Storage System snapshots**

∗ **Enhanced backup performance via incremental FlashCopy support for the IBM SAN Volume Controller**

## Specification

### General

Tivoli Storage Manager for Copy Services and Tivoli Storage Manager for Advanced Copy Services can help protect your mission-critical data that requires 24 x 7 availability. They offer ready-to-use, application consistent, product-based solutions designed to implement high-efficiency backup and restore processes for business-critical applications, and help to eliminate backup-related performance impact on the production host. ## About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients  vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
