IBM Tivoli Provisioning Manager for Software Client Device Annual Software Subscription and Support Renewal

IBM. **Tivoli** software

IBM Tivoli Provisioning Manager for Software provides a new level of release management capabilities. It helps automate software deployment to servers, desktops and laptops distributed across different environments and locations-quickly, easily and cost effectively. Includes built-in discovery, inventory, software distribution, patch automation, and support for compliance and remediation. Provides reporting with enhanced query capabilities and improved discovery of managed resources. Displays an intuitive user interface that can drive deployments over supported Tivoli Management Framework or SOA infrastructures. Strengthens compliance through comprehensive reporting and automated remediation of noncompliant resources. Offers optional plug-in features to support OS imaging and bare-metal installation. Supports either IBM Tivoli Management Framework for existing Tivoli Configuration Manager V4.2.3 implementations or a new SOA environment designed to be more flexible yet easier and less costly to manage. Capture complex provisioning user tasks electronically so they can be reused again and again. Operating systems supported: AIX, Linux, Solaris (Sun micro systems), Windows family.

Features

- * Includes built-in discovery, inventory, software distribution, patch automation, and support for compliance and remediation
- * Provides reporting with enhanced query capabilities and improved discovery of managed resources
- * Displays a new, intuitive user interface that can drive deployments over supported Tivoli Management Framework or SOA infrastructures
- * Strengthens compliance through comprehensive reporting and automated remediation of noncompliant resources
- * Offers optional plug-in features to support OS imaging and bare-metal installation
- * Capture complex provisioning user tasks electronically so they can be reused again and again
- * Operating systems supported: AIX, Linux, Solaris (Sun microsystems), Windows family
- * 12 Months Software Subscription and Support

Specification

General

IBM Tivoli Provisioning Manager for Software provides a new level of release management capabilities. It helps automate software deployment to servers, desktops and laptops distributed across different environments and locations-quickly, easily and cost effectively. Includes built-in discovery, inventory, software distribution, patch automation, and support for compliance and remediation. Provides reporting with enhanced query capabilities and improved discovery of managed resources. Displays an intuitive user interface that can drive deployments over supported Tivoli Management Framework or SOA infrastructures. Strengthens compliance through comprehensive reporting and automated remediation of noncompliant resources. Offers optional plug-in features to support OS imaging and bare-metal installation. Supports either IBM Tivoli Management Framework for existing Tivoli Configuration Manager V4.2.3 implementations or a new SOA environment designed to be more flexible yet easier and less costly to manage. About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
