Drobo B800fs 8-Bay Storage Area Network (SAN) Array for Business with 8TB (4x2TB) SATA Hard Drives

No Image
Available

Built on proven and award-winning BeyondRAID technology, the Drobo B800fs allows the sharing of files with all computers on the network and keep your vital business data protected with Drobo Sync offsite replication. Drobo model B800fs connects seamlessly to your existing Ethernet network and supports both Windows and Mac computers. DroboApps give you the freedom to customize your Drobo to meet your own unique set of requirements. A Drobo B800fs iSCSI array can hold up to 24TB of raw storage and beyond. To add capacity, simply insert a new hard drive or replace your smallest drive with a larger one, even when all drive bays are full. Unlike traditional RAID, the BeyondRAID technology in Drobo enables you to leverage different drive capacities, allowing for continuous expansion as larger drives become available. With Drobo, expansion is automatic and instantaneous and access to data is always maintained, all while protecting you from two simultaneous drive failures. The Drobo B800fs includes an intelligent and easy-to-use data replication tool that can seamlessly back up your valuable data from one Drobo to another one on your network or across the Internet to a remote site. Having your data protected offsite guards you from a major disaster, resulting in peace of mind.

Drobo B800fs connects directly to your Ethernet network to make sharing your data easy. Just plug it into any switch and you're ready to go. The Drobo B800fs has two Gigabit Ethernet ports that can be configured to fail over if one link fails or can be set up to connect to two separate networks-one for your data and the other for Drobo Sync replication, for example. Connect to Drobo, and access shared data, using any Windows or Mac computer. Drobo natively supports CIFS/SMB and AFP network protocols. Enable the dual-drive redundancy option to protect your data from failure of up to two hard drives. It's all done with a single click and without ever losing access to your data. Running out of space? Switch back to single drive redundancy at any time. Unlike moving between traditional RAID 5 and RAID 6, there's no need to reformat or migrate data from the Drobo B800fs, potentially saving you hours or days of downtime. Enable the dual-drive redundancy option to protect your data from failure of up to two hard drives. It's all done with a single click and without ever losing access to your data. Running out of space? Switch back to single drive redundancy at any time. Unlike moving between traditional RAID 5 and RAID 6, there's no need to reformat or migrate data from the Drobo B800fs, potentially saving you hours or days of downtime.

Maximum Enclosure Capacity	Total Bay Capacity 24TB - Number of Bays 8
Included Drive(s)	8000GB (4 x 2000GB) 7200RPM SATA 3G
Network Interface	Ethernet 10/100/1000Mbps
Dimensions	30.91cm (W) x 35.81cm (D) x 13.87cm (H)

Features

- * **BeyondRAID Technology**
- * **Share Files Directly from Drobo**
- * **Offsite Data Protection**
- * **Protection from Two Drive Failures**

Available

Included Drive(s) 8000GB (4 x 2000GB) 7200RPM SATA 3G

Interfaces Ports

RJ-45 Ports 2 x RJ-45

Network (Wired)

Network Interface Ethernet 10/100/1000Mbps

Network Protocols Common Internet File System (CIFS)/ Server Message Block (SMB)
Apple Filing Protocol (AFP)

System

Management Drive bay indicator lights, capacity gauge, status lights Drobo
Dashboard version 2.0 or later Drobo-initiated email
notification

System Requirements

Operating Systems Supported Mac OS X 10.5.8 or later, 10.6.8 or later, 10.7.0 or later (all
Intel only) Windows 7 SP1, Vista SP1, XP SP3 (all 32 and 64 bit)

Compliance

Standards Environmental: RoHS, WEEE, REACH Regulatory: FCC Part 15 Class
A; Canada ICES- 003 Class B; CE Mark; CISPR22:19973rd Edition
Class B; MIC Mark; VCCI Approval to V.3; BSMI Approval to
CNS13438; ACA Approval to AS/ NZS 3548 Safety: UL, cUL, TUV, CB

Electrical

Voltage/Frequency/Power 100 to 240V AC / 50 to 60Hz / 82W

Cooling System Dual, fixed cooling fans

Environmental

Environmental Operating Temperature 10 to 35C

Operating Humidity Humidity 5 to 80%

Noise Level 30.4dB

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
