All Drobos are excellent destinations for backup data. Not only is a Drobo remarkably easy to use, but you can instantly and infinitely grow storage capacity, ensuring that you always have enough space to back up important data. Drobo PC Backup is the easiest way to back up a Windows-based PC to a Drobo. Once it's installed, five clicks are all it takes to protect your valuable photos, videos, music, documents, and applications. PC Backup automatically detects and backs up incremental file changes, ensuring that your data is always protected. Drobo PC Backup is now bundled with Drobo, Drobo S, Drobo FS, and Drobo B800fs. If you have just one computer that you need to back up, you can connect your Drobo or Drobo S directly to the computer using a USB, FireWire, or eSATA cable. Drobo PC Backup ensures that all of your valuable data is automatically backed up to your Drobo. If you have a Drobo FS or a Drobo B800fs connected to your network, you can back up your computer to an available network share. A networked Drobo allows you to back up multiple computers to their own shares on the Drobo as shown below in a home office or small office or small business. Drobo PC Backup automatically detects and backs up incremental file changes.

A real plus for people on the move, the Plug & Protect feature detects when you connect your PC to your Drobo and automatically backs up all changes that occurred since the last connection. Drobo PC Backup lets you automatically keep a secondary backup to protect against theft, fire, flood, or other natural disaster. You can easily choose to back up to one Drobo and simultaneously back up to a second Drobo or other external drive.

Minimum Processor Requirements	1GHz or faster
Minimum Memory Requirements	256MB
Minimum Storage Requirements	128MB
Product Type	License

Features

- * Automatic double protection
- * Continuous data protection
- * Back up open files or files in use

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
