Freecom Mobile Drive XXS Leather (1TB) USB 3.0 Portable Hard Drive (Black)

No Image
Available

As a professional user you want to be able to always carry your valuable (business) data with you. If you are a business-executive looking for 'not just another external mobile hard drive'- the Freecom Mobile Drive XXS Leather is your hard drive of choice! It is ultra compact and extremely easy to use, and thanks to its distinctive black leather 'enclosure' it adds that extra touch of style!

The Freecom Mobile Drive XXS Leather is the latest development in Freecom's ongoing pursuit of making storage more accessible, useable and convenient. The unique black leather 'enclosure' with its distinctive orange stitching makes it the perfect storage accessory for the modern business executive. Connect the XXS Leather to your notebook during a business meeting and it is guaranteed to turn some heads! It also comes with a compact sized USB Cable - all you need to connect and use the Mobile Drive XXS on your notebook or PC. Gone are the days where multiple connection cables create a mess when stuffed inside your notebook bag.

Warranty	Two year warranty
Disk Size	2.5 Inches
Disk Capacity	1000GB
USB Ports	1 x USB 3.0

About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
